ERNAKULAM,KERALA | 996-194-8044 | annajoby78@gmail.com

PROFESSIONAL SUMMARY

Experienced in website design and writing clean code, dedicated and hardworking professional with a strong value for honesty. Proven ability to implement user-centered content for desired outcomes, focusing on customer service, time management, and trend tracking to consistently deliver high-quality results. Expertise in troubleshooting and building successful solutions. Dependable employee eager to expand skills and contribute to company success. Willing to take on any task to support the team and help the business thrive.

PROJECTS

FeZa: Music Streaming Website

Architected a robust architecture for Feza, ensuring real-time song streaming capabilities that support over 1,000 concurrent users, thereby enhancing user satisfaction and retention rates across the platform. Feza enables users to upload their own songs, creating a diverse and user-driven music library.

ONLINE LIBRARY

Managed and developed digital library systems to create and maintain extensive collections of electronic books and other resources using HTM, CSS and Django . Enabled users to access a diverse range of research materials online, including rare and out-of-print items that are difficult to find in physical libraries. Enhanced user experience by optimizing search and sorting features, facilitating efficient resource retrieval. Supported students and professionals in conducting research and staying current with industry developments through these digital platforms.
